

BOMA International Energy Efficiency Program: BEEP® Version 2.0

First launched in 2007, the BOMA Energy Efficiency Program, or BEEP®, quickly became the standard for energy management training, reaching tens of thousands of professionals. The new BEEP v2.0 is updated to reflect the latest industry trends, new technologies, and best practices to help the commercial real estate industry reduce energy consumption and improve the energy performance of real estate assets.

BEEP v2.0 offers the most relevant, up-to-date source of energy efficiency training for building managers. The new six-course curriculum includes:

- Introduction to Energy Performance
- How to Benchmark Energy Performance Using ENERGY STAR Portfolio Manager
- Audits to Action Plans — Concepts and Economic Benefits
- Low-Cost Opportunities to Improve Energy Performance and Reduce Costs
- Building the Business Case — Valuing Energy Enhancement Projects and Financial Returns
- Engagement and Awareness — Promoting and Leveraging Sustainability Performance

Each course offers all-new actionable and results oriented supplemental materials that are based on the latest

technologies and best practices. Plus, a new BEEP v2.0 web portal features resources and tools such as implementation models, market studies and statistics, emerging concepts, and more! Visit the portal at www.boma.org/BEEP.
